McNamara Says U.S. Can Absorb Attack, Blast Russia

Defense Chief Cites Nation's Military Might

Declares Country To Dominate NATO While Paying Bills

WASHINGTON (AP)—Secretary of Defense Robert S. McNamara said today the United States does not want to dominate the North Atlantic Treaty Organization but will have to stay in the driver's seat as long as it carries so much of the Western defense load.

"We would be happy to share more equitably the heavy burdens we now carry in the collective defense of the free world," McNamara said. "But as long as we do carry so great a share we cannot escape carrying a proportionately large share of the responsibility for leadership and direction."

America's allies in Europe should be able to shoulder a bigger share of the burden than they have, he added.

Outlines U.S. Hopes

McNamara outlined U.S. hopes for the Atlantic Alliance in telling Congress about a five-year defense program designed to handle the Communist threat in situations ranging from guerrilla warfare to nuclear attack.

In lengthy testimony to a closed-door session of the House Armed Services Committee, he estimated the fiscal 1964 spending for all the defense programs at \$56 billion. The biggest share, \$51 billion, is tagged for the military forces.

In a wide-ranging summary of the present and future U.S. military position, he strongly hinted that the United States would send combat troops into South Vietnam if the communists launch an open attack from North Vietnam. For the first time, he acknowledged the United States now has more than 11,000 military men in Viet Nam advising the native forces.

Cites U.S. Nuclear Might

McNamara told Congress that American strategic might is sufficient to deter any attack.

Family of 7 Terrorized By Gunman

CLEVELAND (AP)—A young masked gunman shot his way into a Miles Road home, tied up a family of seven, then assaulted a 16-year-old daughter twice before fleeing with \$275, suburban Solon police reported today.

Four other young children in their bedrooms were not molested. Police said the family, not identified, spent 90 minutes of terror at the hands of the swaggering gunman. He broke into the home by firing five shots through a kitchen door and unlocking the latch at 11:30 p.m. There are no nearby homes.

A police sergeant said the family related this story:

The man ordered the father to draw the blinds and turn out all but hall lights. Then the wife and children were called from their bedrooms. The bedroom telephone wires were ripped out.

The father pleaded with the man to take all the money available—\$275—but not to harm the family.

The daughter was ordered to tie her father to a bed and her mother was bound on the bed. Both were blindfolded. Neckties, handkerchiefs and telephone cord were used.

The masked man, described by the daughter as a Negro in his 20s, 5-foot-7, of medium build and weighing about 155 pounds, raped her twice in the presence of her helpless parents.

The mother and daughter then were forced to drink four times from a liquor bottle. The man also demanded cigarettes before leaving.

He fled in a 1954 light-colored Buick sedan. A police cruiser, on routine patrol, spotted the car leaving the driveway but did not realize the significance at the time and gave no chase. Roadblocks later were set up throughout the area.

The family got in its own car after the daughter freed her parents and went to police headquarters. All three were treated at a hospital and released.

A REAL ARMPFUL — Mrs. William E. Linsley, 27, of Peoria, Ill., gave birth to heavyweight twins Saturday. They weighed a total of 17 pounds, 10 ounces. Born three minutes apart, they are Donna Jean, left, 8-11; and Diana June, 8-15. The Linsleys have three other children, all under five years of age.

Six Officers Admit Thefts

Stark Ex-Deputies Also Under Probe

CANTON, Ohio (AP)—Stark County Sheriff Department officials investigating alleged involvement of their own men in a series of thefts said today other ex-deputies may have taken part.

Capt. George Papadopolos said an all-out investigation will continue in an attempt to "get to the bottom of this mess" concerning alleged operations of seven former deputies.

The seven deputies, all members of the Uniform Road Patrol, were dismissed on departmental charges they participated in a string of thefts that started in 1955. Six of them have signed statements admitting the thefts, Papadopolos said.

The chief of detectives said charges would be filed against the seven "and before this is over probably (against) a few ex-deputies who left since 1955."

"It may take a while, but we'll purge this department of anyone who will not and cannot honestly and conscientiously discharge his sworn duties," he said.

The names of those fired were not disclosed. They were part of an 18-man department whose duties while investigating break-ins, robberies and highway accidents.

Papadopolos said some stole

Lincoln's Day Dinner Set In Lisbon

Republicans To Hear Sen. Dominick Feb. 14

Peter H. Dominick, U. S. senator from Colorado, will speak at the Lincoln's Day Dinner Feb. 14 at the First Methodist Church in Lisbon.

The event is sponsored by the Columbiana County Republican Central Committee.

Sen. Dominick worked his way up the political ladder, starting out as a county central committeeman. He subsequently served two terms in the Colorado State House of Representatives, one term in the U. S. House of Representatives and was then elected senator.

An attorney, he received his A.B. and LL.B. degrees from Yale University.

During World War II, Sen. Dominick served four years as an Army Air Corps pilot, including one year flying "the hump" from India to China. He received the Distinguished Flying Cross and the Air Medal and cluster.

The dinner will begin at 6:30 p.m. Tickets may be secured from any member of the County

Board Promises Swift Action on Sheppard Plea

Rhodes May Get Recommendation By End of Week

COLUMBUS, Ohio (AP)—The immediate future of convicted wife-slayer Dr. Samuel H. Sheppard may be in the hands of Gov. James A. Rhodes.

Ohio's Pardon and Parole Commission heard a plea Tuesday for freedom for the 39-year-old former osteopath and promised a speedy recommendation for Gov. Rhodes—perhaps by the end of the week.

The prominent Bay Village, Ohio, doctor was convicted eight years ago in the bludgeon slaying of his pregnant wife, Marilyn.

The commission is considering a possible recommendation to commute Dr. Sheppard's second-degree murder sentence to manslaughter. That would result in early parole for Sheppard.

Must Serve 10 Years

Under Ohio law, Sheppard must serve a minimum of 10 years in prison—less time for good behavior—before he can be considered for parole. He entered prison July 20, 1955, after his conviction in December 1954.

In any case, the Parole Commission's decision will be known even before Gov. Rhodes acts. Vice Chairman Gloria Karpinski said a new policy permits the commission to announce its recommendation once it has been set to the governor.

The hearing, at which Sheppard did not appear, was highlighted by the introduction to the commission of Mrs. Ariane Tebbenjohanns of Dusseldorf, West Germany. The 33-year-old divorcee, who has indicated a desire to marry Sheppard, sat quietly smoking during the almost two-hour session.

Met Sheppard Friday

She was neatly attired in a black suit trimmed with white fur. She disclosed later that she met Sheppard for the first time Friday when she visited him for 4 hours. Their interest in each other developed through correspondence begun in 1960, she said.

State Correction Commissioner Maury C. Koblenz said after the hearing he has rejected a request by the German woman to visit Sheppard again today "until

Pennsy Lines Open After Derailment

Pennsylvania Railroad traffic through Salem was resumed at 8:03 p.m. Tuesday, about 16 hours after being halted by the derailment of six freight cars about a mile and a half northwest of Salem.

Several eastbound and westbound trains which regularly go through Salem had to be re-routed through East Liverpool and Canton as a result of the derailment of a portion of the eastbound freight train known as Astronaut II. When the loaded freight cars left the track, some of the cars tilted over the westbound track.

A train wreck crew worked through Tuesday righting the derailed cars. Some men were still at work today repairing the tracks.

A number of passengers bound for Salem debarked in Canton and were taxied to this city Tuesday.

Ohio Senate Gets Wage Bill

Extension of \$1.25 Minimum Proposed

COLUMBUS, Ohio (AP)—Three Democratic state senators have proposed a \$1.25-an-hour minimum wage for an estimated one million Ohioans not protected by federal law.

The proposal, sponsored by Sens. James P. Kilbane of Cleveland, Frazier Reams Jr. of Toledo and Charles J. Carney of Youngstown, was one of the top bills introduced Tuesday in an otherwise dull legislative day.

"Ohio has an obligation to protect these workers against substandard wages and exploitation," the senators said in a prepared statement.

The measure is certain to draw the fire of restaurants, hotels, groceries, laundries and other enterprises.

Another key bill introduced by Rep. Harry H. McIlwain, Cincinnati Democrat, called for opening of the polls on Ohio election days at 7 a.m., one-half hour later than at present, and closing at 7:30 p.m., one hour later than under present law.

Because both Republican Gov. James A. Rhodes and Senate Majority Leader C. Stanley Mechem, Nelsonville Republican, are laid low by heavy colds, it appears neither House of the legislature is going to accomplish much this week aside from introduction of bills.

An administration bill was submitted by Rhodes' office asking a law to make the terms of seven additional cabinet members concurrent with the term of governor: the tax commissioner, the director of state personnel, the administrator of workmen's compensation, the administrator of the Bureau of Unemployment Compensation, the director of natural resources, the director of mental hygiene and correction and the director of health.

All now serve terms fixed by law—some four years and others

Will Help Finance New School

West Branch Gains In District Worth

Mahoning County Auditor Stephen J. Olenick has notified West Branch School District of its new certified valuation of \$23,456,776, setting the stage for the impending advertising of \$310,000 in bonds to finance additions to the new high school.

Due chiefly to the current reappraisal, the valuation exceeded last year's by \$2,420,371, according to Executive Head Clinton Heacock.

The certified valuation has also been mailed by the county auditor to the State Board of Taxation for its approval after which Squire, Saunders & Dempsey, Cleveland bonding firm, will advertise the sale of bonds.

In the meantime, the West Branch Board of Education has informed the plumbing and heating contractor, the R. C. Snyder

Co. of Massillon, not to pour any concrete at the new school until the temperatures rise above 35 degrees.

Consequently, the septic tank will not be installed until a warmer spell sets in, delaying the occupation of the new building. This means the almost completed structure may not be in use possibly until the beginning of the fall term. Several smaller jobs such as painting and cleaning are also needed before occupancy.

The board will not accept the building from the contractors until it is absolutely satisfied that all specifications have been fulfilled, the executive head declared.

The district hopes to bolster its financial status by collecting \$35,000 in taxes.

Theron Draws Chuckles At Blue Laws Hearing

By WILLIAM S. VANCE

News Staff Correspondent

COLUMBUS — A Columbiana County country store owner was among witnesses Tuesday who asked the house judiciary committee to relax Ohio's blue laws.

Theron Lamoucha, who operates Theron's Country store on Rt. 164 near Columbiana, told the committee he does about 15 percent of his business on Sunday and said mandatory closing would represent a hardship.

"Christmas is the only day we're closed," he said, "and we get phone calls all day about it. I'm sure we would be loaded with phone calls if we closed on Sunday."

Lamoucha said he started the store 11 years ago as a hobby but that it now is his sole livelihood. He drew chuckles from the

committee when he noted that he used to open the store late on Sunday "but now we try to open early to give the ministers the first chance."

In addition to a restaurant and store, said Lamoucha, "we have a little race track out back, but I guess that's legal as recreation."

Merchants from Youngstown, Akron and Toledo joined Lamoucha in pleading for legal permission to operate on Sunday. Auto dealers from Columbus and Cleveland also spoke.

Labor Attack On Macmillan Sure To Result

De Gaulle's Action Criticized by Other Alliance Countries

LONDON (AP)—Shock waves of disappointment and anxiety surged through free world capitals today at the rejection of Britain's Common Market bid.

The Atlantic alliance groped for steady footing amid the far-ranging uncertainties of President Charles de Gaulle's blackmail.

The collapse of the Brussels negotiations to link the island kingdom with continental Europe threatened the biggest immediate explosion in Britain.

Faces Labor Attack

Prime Minister Harold Macmillan, who had staked his reputation on the success of the talks, was certain to face a full-scale attack from the opposition Labor party against a background of 800,000 unemployed and a stagnating economy.

One effect could be a scaling down of British military commitments to the defense of Europe.

Trade experts said Britain has one path now: a fierce fight to win bigger markets overseas and to spur industrial growth at home through more efficiency in industry and harder work all around.

One suggestion was that the government propose a grouping

'Project No. 1'

New Highway Chief Optimistic About Salem Overpass

The beginning of construction of Salem's W. State St. overpass appeared to be near today with the receipt by The Salem News of a letter from P. E. Masheter of Columbus, new director of the Ohio Department of Highways.

Director Masheter referred to the building of the grade separation bridge on U. S. Route 62 on Salem's west side as "Project 1 in 1963."

A contract for the construction of the one and a third million dollar bridge over the Pennsylvania Railroad crossing on W. State St. was awarded to the A. P. O'Horo Co. of Youngstown on Jan. 9.

Masheter said: "Right-of-way was certified as being available for the project on Jan. 17, 1963, and a request to the Bureau of Public Roads for the concurrence in the (highways) department's award was also made on Jan. 17. We can expect receipt of concurrence, under ordinary conditions, in about a week or 10 days from date of the request. As soon as the concurrence is received the contract will be signed."

"You may be assured of our interest in the early completion of this project."

The letter from the highways director followed by some days a query by The News, asking when construction of the overpass might be expected to begin.

Some local officials had feared construction of the overpass might suffer considerable delay because of the recent change in administrations in Columbus.

Local legislation needed to assure Salem's financial participation in the building of the overpass, to be paid for mostly by state, federal and Pennsylvania Railroad funds, was completed in late November of last year. The subject of the overpass occupied countless hours of City Council attention and effort in 1962.

Starbuck Brothers Inc. will now be known as Firestone Heating & Cooling Inc.

Euromart Rejection Big Blow to Britain

Western Alliance Diplomats Ask: Can De Gaulle Get Away With It?

PARIS (AP)—The future of the Western Alliance may hinge on the question of who is tougher—youthful President Kennedy or the aging but durable enigma of Europe, President Charles de Gaulle.

The world likely will be witnessing two cold wars within the big one—in the East between the Soviet Union and Red China, in the West between the United States and De Gaulle's France.

Britain's lost battle to join the European Common Market will have repercussions around the

world. Obviously it is a severe—though not necessarily fatal—blow to the Western unity for which statesmen labored patiently over the past dozen years.

Cheering In The Kremlin

There will be cheering in the Kremlin and probably a Soviet attempt to take quick advantage of the breach in the Western front. The Soviet response may take the form of an aggressive new peace offensive, with seemingly genuine gestures on ranking problems, to make it appear that Europe can

do business safely with the Communists.

De Gaulle has made clear that he believes Europe should be a force standing between the United States and the Soviet Union, independently wielding its own nuclear weaponry, even though he has no nuclear weapons to wield yet.

He has made France into a poor partner in NATO—hardly a partner at all. Since France is an important piece of European real estate, De Gaulle's policies already have weakened the Atlantic Alliance.

Champions Continentalism

De Gaulle also has declared Britain unfit to be considered a part of Europe. He champions looking inward, paternally guided heart—France and Germany.

A spokesman reflecting the French president's views says

British Prime Minister Macmillan chose the United States instead of Europe by agreeing to President Kennedy's proposal to arm Britain and France with Polaris missiles. This, to de Gaulle's way of thinking, was accepting U.S. domination to the detriment of Europe.

De Gaulle will remain president of France at least until 1966 if his health holds out. Although 72, he looks hale and hearty. For another three years, therefore, the United States must deal with situations created by his policy.

He has struck a hard blow at the concept of European unity and Atlantic partnership which is the core of President Kennedy's world policy. In Europe, diplomats ask: Can De Gaulle get away with it?

Women Voters League Seek Support on Subdistrict Plan

The Salem League of Women Voters is seeking the support of local service and civic clubs in its campaign to persuade the Ohio General Assembly to initiate action to subdivide some of the state's more populous counties.

Subdistricting could be accomplished if voters would approve a constitutional amendment but the Ohio legislature first must adopt a resolution to put a constitutional amendment on the ballots.

Mrs. G. E. Farrington, president of the Salem League of Women Voters, said the organization is appealing to the Lions, Rotary, Kiwanis, Quota, Business & Professional Women's clubs, and the Chamber of Commerce and the

Junior Chamber to support the subdistricting plan by urging that State Rep. Clarence Wetzel and others in the state legislature take favorable action on the resolution. Subdistricting would merely divide heavily-populated counties in Ohio into districts for the election of state representatives, the league points out, and it would prevent unknown and unqualified candidates, whom they refer to as "Joe Klunker," from being elected to office.

"This happens in the most populous counties, like Cuyahoga, where 'bedsheet' ballots often favor 'Joe Klunker,'" explained Mrs. Farrington. "If redistricting succeeds, that county would have the same number of representatives but a few would be elected from each district rather than all elected from the county at large."

The subdistricting plan is promoted state-wide by the Ohio League of Women Voters.

Me Or Him?

By HAL BOYLE

NEW YORK (AP)—The menu for today, dear reader, is a true-life success story with a puzzle at the end.

The puzzle is whether you can guess which—but first, read on: Once upon a time—about 30 years ago—two young fellows roomed in the same boarding house at a Midwest university. America was still in the stubborn grip of the greatest depression of the 20th century.

Times were really rough. You could eat on 35 cents a day if you had to. You never bought a new pair of shoelaces until the ones you were wearing had been broken and knotted together in at least four places.

When the two young fellows graduated, one said:

"There's nothing in the way of opportunity out here. I'm going to seek fame and fortune in the big city. I hear there's a dollar to be made there for every light on Broadway."

The other fellow said:

"I think I'll go back and settle down in my home town where people know me. Something'll turn up sooner or later."

Well, both these young men—let's call one Mr. Home Town and the other Mr. Metropolis—carried out their decisions. Thirty years later Mr. Home Town phoned Mr. Metropolis and said, "I'll be in Manhattan next Friday. How about us getting together for dinner?"

He and Mr. Home Town reminisced about old times on the campus as they gulped and chewed their way through two highballs, steaks, after dinner brandy—Mr. Home Town really seemed to want to live it up, and Mr. Metropolis felt rather sorry for him—and coffee.

"How have things been going with you?" asked Mr. Home Town.

Fingering the bills in his pocket and wondering whether they'd cover the tab, Mr. Metropolis said he had one child, lived in a small but comfortable apartment in an area where there hadn't been a knife stabbing in six months. He said he didn't drive a car, rode the subway, had a pretty good job and hoped if he could hold it to 65 to be able to save enough to retire and move back to his own old home town.

"And what about you?" he then asked.

"Oh, I've got seven kids, said Mr. Home Town. "I invested in a transportation company that did \$20 million last year. But, of course, that's not my main interest."

"What is your main interest?" asked Mr. Metropolis.

"Oh, I'd say it probably was banking."

"How big is your bank?"

"Which one? I've got four."

As he reached for the restaurant check and opened a wallet stuffed with \$50 bills, Mr. Home Town remarked:

"You know, I envy you the cultural advantages you've gained by living in a place like New York all these years. I'm still a country bumpkin. My wife and I get to take in the shows and concerts only when we pass through here each summer on our way to Europe to pick up a few modern paintings."

The two men arose, shook hands and parted.

That is the story, dear reader. Now comes the puzzle:

Can you guess which of these two young men was the one who came to the big city 30 years ago to make his fortune and enjoy the finer life—me or the other fellow?

Woman Deaf From Birth Hears With Electronic 'Ear'

LOS ANGELES (AP) — Last Nov. 27 an electronic "ear" was surgically implanted in the skull of a 46-year-old woman who had been deaf from birth.

Today Mrs. X can hear. She can distinguish words and is learning to associate them with speech sounds she long ago was trained to make but which she could not hear.

The success of the "ear" has encouraged the electronics specialist who made it to start planning artificial "eyes," like tiny television sets, and electronic circuitry to replace polio-damaged nerves.

The specialist is James Doyle, 35, president of General Data

Corp., of suburban Orange, which supplies electronics for missile and space research.

The neurosurgeon who implanted the electronic "ear" is his brother, Dr. John B. Doyle Jr. of the University of Southern California Medical School.

Dr. Doyle gave a report on the operation at a meeting of the American Medical Association.

The device in Mrs. X's skull measures 1 1/4 x 1 1/2 x 1/2 inches and weighs about two ounces. James Doyle said the next model would be much thinner and could be implanted under the skin. It would not have to be recessed into the skull.

Mrs. X's "tin ear" carries only

one channel of signals from a lapel microphone to her eighth, or auditory, nerve, but this enables her to tell one word from another. The next model, Doyle said, will have at least four channels enabling the patient to hear a wider variety and volume of sounds, with less distortion. Eventually he hopes to perfect models with 20 to 30 channels and thus approximate normal sound reproduction.

The cost of the next model: about \$1,000, exclusive of medical fees.

"So far Mrs. X has had no infection, no pain and no headaches," Doyle said. "She can tell speech from music, even say whether the speaker is a man or

a woman. And most important of all, she is very happy."

In many cases of deafness, Doyle said, the auditory nerve is normal. Accident or illness has damaged the ear drum or the tiny bones that conduct its vibrations to a fluid-filled organ called the cochlea. So long as the cochlea, or semicircular canal, is undamaged and the auditory nerve is normal, he said, the electronic device will work.

Craft Burns at Kansas City Airport

All 8 Aboard Killed In Airliner Crash

KANSAS CITY, Mo. (AP) — A sleek prop-jet airliner, coming in for a landing at Kansas City Municipal Airport, crashed into a dike at the end of a runway Tuesday night, killing all eight persons aboard.

The four-engine Continental Airlines Viscount had seats for 59 passengers but carried only five. All that was left was a mass of tangled wreckage that burned

fiercely for 20 minutes.

Dead, in addition to the five passengers, were the three crew members. All eight bodies were recovered.

Th victims included: Capt. Joseph William Smith, 46, Dallas, Tex., the pilot.

First officer S. Clark George, 34, Dallas.

Hostess Ann Lewis, 26, daughter of Mr. and Mrs. R. C. Lewis, Abilene, Tex.

Passengers: Mary Ann Stewart 21, Kansas City, Miss Stewart was on the public relations staff of the People to People program. Her parents live in Wichita Falls, Tex.

Mrs. Elmer Russell, 70, Kansas City, Kan.

Her son Richard, 32 Kansas City, Kan.

E.N. Johnson, Chicago Heights, Ill.

Nathan E. Garber, St. Louis.

R. O. Ziegler, assistant chief of air traffic for the Federal Aviation Agency here, said Plane Flight 290 from Midland, Tex., approached from north to south to

across the business district just across the Missouri River from the airport.

"It made a normal approach until about 50 feet above the north end of the runway," Ziegler said, "at which time it appeared to level off and climb slightly. It proceeded over the runway until it reached the south end of the field, when the nose appeared to drop sharply and the aircraft disappeared from view behind the dike."

Witnesses said the craft hit an earthen bunker and bounced over a 9-foot wire fence. It skidded up the slope of the dike and catapulted into undergrowth 150 yards from the river.

J. W. Matthews of Bonner Springs, Kan., said the plane was off as it approached.

Matthews was on duty as a railroad foreman near the airport.

Sheppard

(Continued From Page One)

we clarify her status in relation to him."

Sheppard was represented at the hearing by attorney F. Lee Bailey of Boston, Mass. Bailey based his petition for parole on grounds that Sheppard has volunteered for medical experiments with cancer cells while in prison and performed a number of other medical services.

He has set a good example for other inmates and generally has responded well to his circumstances, Bailey said.

The attorney added that an anonymous benefactor plans to set up a medical clinic in a needy area—perhaps India—and that Sheppard is eager to work there if he is released and legal details can be worked out.

Maintained Innocence

Sheppard presently is in Marion Correctional Institution, where he is teaching classes in medically related subjects. He has steadfastly maintained his innocence, contending a bushy haired intruder twice knocked him out during a robbery-slashing.

Speaking in opposition to a parole was Mrs. Gertrude Bauer Mahon, an assistant Cuyahoga County prosecutor.

"There isn't any question but that the state established beyond a reasonable doubt that this man killed his wife," Mrs. Mahon said.

"He should get no special consideration because he has a special skill that he has used in prison," she added.

Bailey said Mrs. Tebbenjohanns is the daughter of a water purification process inventor who left her stock in his company. She has a 9-year-old daughter. Sheppard has a son, 15, now in military school.

In Chicago, Mrs. Tebbenjohanns' former husband, Olaf, said he was very surprised in her involvement in the Sheppard case.

"She had planned to meet me in Chicago last week," he told the Associated Press. "But she didn't call me and I couldn't get hold of her. Then I got a post card from New York in which she said she planned to go to Ohio. At that time, I didn't know what she planned to do there."

Tebbenjohanns, an importer in Chicago on business, said he didn't know his former wife was corresponding with Sheppard while he was in prison but "I know she was interested in his case."

Two Firms Bid On W. Reserve School Bonds

BERLIN CENTER—Two Cleveland and two Cincinnati bonding companies, who specialize in the sale of municipal, tax-free bonds, have offered competitive bids for the purchase of \$590,000 worth of bonds to finance the new Western Reserve High School, Superintendent of Schools Maurice Jones reported today.

The bids were opened this afternoon by Supt. Jones and Board of Education Clerk Charles Zimmerman. The two men tabulated the bids showing rates of interest and dividends offered by the firm in preparation for the board's deliberations and award of the contract tonight.

Supt. Jones said that other companies may submit bids before the 2 p.m. deadline today.

President Harold Brown will conduct the business meeting at which the resolution of award will be drawn up. A majority vote is needed by board members Brown, Dr. Paul Olson, Theodore Keck, Francis Miller and Muri Hively.

The board will meet Feb. 13 in a special session to take a last look at plans for the 300-pupil school on Route 224 before the architect, Smith, Buchanan and Smith of Youngstown, completes the final drawings. The contract for the construction is expected to be awarded sometime in April.

Notices of the board's intentions to sell any or all of the farm buildings on the Serensky farm, site of the new school, will be posted by Clerk Zimmerman in post offices and local business establishments.

The superintendent said a number of residents have expressed interest in the farm buildings. Deadline for submitting bids on these is Feb. 15.

Management executives from the greater Cleveland area were guests for the day and enjoyed a guided tour of the facility which attracts thousands of visitors each year.

Weather Affects Park Meter Revenue

The city's 504 parking meters took in \$2,917.74 this month.

The total collected in January or last year was \$3,352.68, about \$435 more than in the corresponding period of this year. The severe winter weather is believed to have contributed at least partially to this month's drop in meter revenue.

Of the \$2,917.74 collected this month, \$2,246.52 was from the 278 on-street meters; \$273.06 was from 161 meters in the parking lot at the corner of Penn Ave. and Pershing St.; \$215.71 from the 28 meters in the State St. parking lot; and \$182.45 from 37 meters in the Pershing St.-Ellsworth Ave. lot.

Two Cited After Traffic Mishaps

A Columbiana woman and a Wellsville youth were cited following separate area traffic mishaps Tuesday afternoon. No one was injured.

Mrs. Loretta Herman, 28, of Columbiana was cited for failure to stop after she collided with the rear end of an auto driven by Mrs. Mildred Arman, 49, of Leetonia on Alternate Route 14 between Salem and Washingtonville.

The Wellsville youth, Ernie Edmundson, 16, was cited by a patrolman from the Lisbon barracks for failure to yield the right of way after his auto struck the side of a panel truck driven by Thomas Wolf, 27, of East Liverpool, at 2:50 p.m. on Route 170, about a half mile north of Route 30.

West Branch

(Continued From Page One)

716.90 from Sebring in an alleged overpayment of State Foundation money to Sebring in 1960. West Branch filed suit against the neighboring school district Tuesday in Mahoning County common pleas court on the state auditor's finding.

West Branch district voters approved the \$310,000 bond issue last November for the purpose of building a new gymnasium at the high school, an auditorium, shop and home economics areas, cafeteria, science laboratory, commercial department and office equipment.

Also coming to the fore again is a declaratory judgment suit which has hung fire in Common Pleas Court concerning not only the \$35,000-plus overpayment in State Foundation monies but also the distribution of assets and liabilities and tax money in the second half of 1960 between West Branch and Sebring districts.

At a Monday meeting in Mahoning County Prosecutor Clyde Osborne's office the parties will attempt to agree on a stipulation of facts in the case, according to Atty. J. B. Blumenstiel, counsel for West Branch. Such a stipulation of facts is expected to shorten a possible hearing on the distribution of the money.

A lawyer in the prosecutor's office will preside at the meeting of Atty. Blumenstiel, Clinton Heacock, West Branch executive head, Atty. William Fowler Jr. of Youngstown, counsel for Sebring schools, and Sebring School Superintendent Donald Wise.

Committee Named by Health Group

Four members were elected to the executive committee at a meeting Tuesday evening of the Columbiana County Health and Safety Council in the county extension office in Lisbon.

Elected were Miss Lillian Schroeder of Salem, James L. McBride of Lisbon, Sam Linger of Wellsville and Atty. Donald Elliott of Rogers. Also on the executive committee are Rev. Thomas Hammerton of East Palestine, president; Mrs. Anna Presbiter of Hanoverton, vice president, and Mrs. Sybil Dignan, Leetonia, secretary-treasurer.

The League of Women Voters of Salem gave a report on health services in the county, claiming that Columbiana County is one of nine counties in the state with five separate health districts.

Rev. Hammerton appointed the executive committee of the council to work with the League of Women Voters and County Medical Society in studying the health district's problems.

There were 30 in attendance. The next meeting of the council will be April 30, but the executive committee will meet Feb. 8 in the county extension office.

Schools

(Continued from Page One)

Schools had been closed since last Thursday.

County roads are in good condition, John (Dick) Neill, county highway superintendent, reports.

Subzero cold clung to some northern sections from the Rockies to the Midwest today but there was welcome relief from the frigid weather of the past two weeks in most of the nation.

Snow, rain and sleet covered broad areas of the country.

Rain splashed over most of the California coastal areas, from Los Angeles to Oregon and parts of Nevada.

The rains were of much benefit in Southern California, easing the longest drought in the region's history.

Heavy snow fell in southern Oregon mountain sections, with more snow throughout the state and freezing rain indicated in Portland where 3 to 6 inches of snow cover the ground.

Temperatures climbed above zero Tuesday for the first time in more than two weeks in some of the snow-covered sections of the Midwest.

The below zero zone this morning covered sections of the northern Rockies and the northern Midwest. Lowest reading was —24 in Bozeman, Mont. It was —14 in Marquette, Mich., and —13 in Minneapolis. A blowing snowstorm which hit Montana diminished and a warming trend was indicated. Temperatures appeared near normal in Colorado and Wyoming, with a few sections reporting below zero.

Freezing rain pelted much of Georgia and the state patrol reported nearly all roads north of Atlanta were closed. Hazardous driving conditions were reported through central and northern parts of Georgia, eastern Tennessee, northern South Carolina and western North Carolina. However, warmer weather was on the way.

Hints From Heloise

By HELOISE CRUSE

Dear Heloise: The reason that many women do not use cutting boards is that they don't have a decent handle to use in picking the board up!

I went to a dime store and purchased the type of handle used to open and close a kitchen drawer. I screwed this onto the end of my cutting board. Now I find that this one handle is worth its weight in silver.

I keep this cutting board standing up among my cookie sheets. When I look underneath the cabinet, I can readily see the gleaming handle and pull it out immediately.

Gals, go buy that drawer pull. Mine cost a thin dime. It's a dilly!

HELOISE.

DEAR HELOISE: If you are late getting dinner started and know that your husband is going to be disturbed about the lateness of his meal, set the table first. (It's the psychology of the thing!)

A man thinks that when the table is set, the meal is soon to follow! My foods teacher in college told me this some years ago and even though she wasn't married, she certainly understood men!

MRS. L. JOHNSON.

DEAR HELOISE: When opening dog and cat food, try opening both ends of the can with your opener and pushing the food out with the lid. Then slice it with a knife. No scooping, and no waste at all!

PITTSBURGH.

DEAR HELOISE: We have expensive wool carpeting in our home. A few days ago, I spilled perfectly clear tap water on it while watering my flowers. Now,

where the water was spilled there is a large, brown stain. Why would clear water stain an expensive carpet?

MRS. RALPH SMITH.

DEAR MRS. SMITH: The particular stain you speak of has nothing to do with the quality of your carpeting.

According to the technical people at the National Institute of Rug Cleaning the cellulosic molecules found in the backing of rugs will break down with age.

When this backing is wet, these aged materials wick up the tufts to the surface, causing the brown stain.

The Institute recommends that in such cases all water be blotted up immediately with clean, white absorbent material such as a bath towel or pieces of facial tissue. Use about a half-inch of facial tissues.

The absorbent material when placed over the area will absorb the moisture and prevent your bad ring but the material should be weighted down for at least six hours.

I use books for this. The weight of the books is most important. It also causes slow drying.

HELOISE.

DEAR HELOISE: My daughter and I use kerchiefs for decorative neck pieces, for our hair, and to decorate simple pill box hats.

I have always kept these in a drawer in my vanity. (Trying to locate one of the color or pattern we desire ends up with the kerchiefs not being folded correctly, and needless to say, with a very messy drawer.)

Now when I wash and iron these kerchiefs I place three or four clip-type clothespins on a wire hanger and clip several of them with a clothespin.

The hanger fits very nicely in the closet, makes our selection easy and avoids that messy drawer.

Church Women Plan Friendship Night

Thirty-four members of the Women's Fellowship of the First Christian Church met recently at the church and voted to sponsor a Friendship Night March 27 and invite women from other churches to attend.

Mrs. Virgil Niederhiser presided at the meeting which she opened by reading a poem, "A Garden for the New Year."

Mrs. Perry Huffman, representative to the Council of Church Women, reported on the council's activities.

Mrs. Calvin Filler was in charge of the worship service. The worship table held an arrangement of red carnations and white chrysanthemums, featuring an open Bible in front of the cross.

Mrs. Edith Purviance reviewed the book, "I Hate to Housekeep" by Peg Bracken, who advances the theory that people should live in trees or well-staffed penthouses.

Mrs. Keith Heineman and Mrs. Kenneth Herold presided at the refreshment table. A small red cloth over white linen covered the table and a driftwood centerpiece holding a large white heart trimmed with red net and red carnations set the motif.

Woman Shoots 3 Sons, Self

Domestic Trouble Cried by Deputies

COLUMBUS, Ohio (AP) — Just last week, relatives said, the Russell Temple family of nearby New Albany was talking about the future and about sending the boys to college.

But Tuesday night, Mrs. Christy Temple apparently took a shotgun and killed her three sons and herself.

Sheriff's deputies said the 29-year-old mother left a note—and four bodies on the floor of the living room in their one-story home east of New Albany.

The children were young—Russell (Bucky) Jr., 3, Michael Bruce, 4, and David Scott, 3 months. The note said she had been contemplating the act for four months presumably before David was born.

Sheriff's deputies, who would not release the actual note, said there was domestic trouble.

The bodies were discovered by the husband, Russell, who was called from his New Albany tavern by a sister-in-law, Mrs. Chester Brown.

Mrs. Brown told deputies she received a call from Mrs. Temple telling her she had just shot the boys and was going to shoot herself.

Mrs. Brown said she asked, "You're kidding, aren't you?" Mrs. Temple replied, "No. I would go to the electric chair anyhow, so I might as well kill myself." Mrs. Brown told officers.

The husband was placed under sedation. He was to be questioned by the sheriff today.

Maharis Better, But Won't Return to Series for a While

By CYNTHIA LOWRY

AP Television-Radio Writer NEW YORK (AP)—George Maharis, who has been off CBS' "Route 66" since last Nov. 6, recuperating from hepatitis and exhaustion caused by returning to work too soon, is beginning to feel better. But he won't return to his costarring part until he is completely well.

"I don't know when that will be," Maharis said. "It might be two months or it might be six. But no matter how long it takes, I won't go back until I am well."

Meanwhile, the adventure series about two young men and a sports car continues to roll along with half its cylinders missing. Martin Milner, Maharis' costar, will be traveling alone for awhile, although so far, Maharis' absence has been concealed rather well.

The ailing Maharis is still bitter about what he considers strong pressures to push him back into the show, which is filmed on locations all over the country.

"I'd like to get back to work," he said. "But my doctors say it isn't wise yet — not traveling around the country, living in motels and not being near doctors who can watch me. When I feel 100 per cent, I'll be ready to work 100 per cent."

NBC, in an effort to strengthen its daytime programming, (whose ratings have been running a poor second to CBS) will drop "The Merv Griffin Show" and "Young Doctor Malone," one of the oldest soap operas, on March 29.

They will be replaced April 1 by a new series, set in a children's hospital, about a young pediatrician; by an adventure series about a young criminal lawyer and by a new audience-participation game show.

The saddest aspect of the shift is the cancellation of the Griffin show, patterned after Jack Paar's old program, which start-

The two were nabbed by Wellsville police after they were observed in an alley at the rear of the store. The store owner said \$58 was taken from a cash register.

Comic strips first began to appear in the form of magazines about 1933.

Legislators From District Sponsor Bills

By WILLIAM S. VANCE
News Staff Correspondent

COLUMBUS — Four Salem area legislators sponsored bills introduced Tuesday in the Ohio General Assembly.

Sen. Edmund A. Sargus, D-St. Clairsville, co-sponsored a bill calling for a state minimum wage of 1.25 an hour. (Complete story on Page One).

In the house, Rep. G. D. Tabl, D-Mahoning, introduced a bill to prohibit educational re-

admissible as evidence, chemical analysis must be based on milligrams of alcohol per milligrams of blood.

Sargus said 15 hundredths of one per cent of alcohol would be considered conclusive evidence of legal intoxication. Between 5 and 15 hundredths would be relative evidence, and 5 hundredths or less would be "prima facie evidence that the person was not under the influence of alcohol."

Sen. Charles J. Carney, D-Youngstown, co-sponsored a bill aimed at establishing the innocence or guilt of persons believed to be driving under the influence of alcohol.

The bill stipulates that to be

requirements for taking civil service examinations except where the post to be filled requires special education. He said the bill would restore a section of law repealed in 1959.

Rep. Thomas J. Barrett, D-Mahoning, introduced a bill to reduce the maximum number of working hours for municipal firemen. Among other things, it provides that firemen would be on duty no more than 96 hours in consecutive periods of 12 days. The law now sets the limit at 144 hours in 14 days.

Private Funeral Set for Poet Frost

BOSTON (AP)—Private funeral services with only members of his family in attendance will be held Thursday for poet Robert Frost as persons in many parts of the world shared in the mourning.

The four-time Pulitzer Prize winner poet died Tuesday at Peter Bent Brigham Hospital at the age of 88. Death was caused by what doctors described as a probable blood clot in the lungs.

He had been in the hospital since Dec. 3. A week later, he underwent surgery for a urinary

tract obstruction and subsequently suffered a heart attack and two blood clots.

Frost, dean of American poets as the uncrowned poet laureate of the United States.

The private services will be held Thursday afternoon in Cambridge, where he had made his home. A memorial service will be held Sunday, Feb. 17, at Amherst College.

Burial will be in the family plot at Old Bennington, Vt., where his wife and parents lie.

Quakers Travel For Big 8 Game Face East Liverpool At Pottertown Next

By MARK W. MILLER
News Sports Editor
With a record shattering 107-71 victory over Youngstown South, Salem can now look forward to its battle with East Liverpool (3-10) at Pottertown Friday night.
It was sweet revenge for Coach John Cabas' aggregation, and the reserves had a hand in administering the humiliation upon Coach Merle Roselle's Warriors.
Salem's 107 points bettered the school mark by one point. The 1958-59 state - runnerup squad knocked off Wellsville 106-51 to establish the previous record.
The Quakers beat South at its own game with a harassing press. So upset were the visitor over the defensive tactic that they made 24 turnovers.

..WITH ABOUT six minutes left, Salem had 89 points. The student body sensed a chance for 100 points and began chanting, "We want a 100 points..."

Another huge crowd was on hand to watch the action. It saw Salem get even for the two losses suffered at the hands of the Warriors last year. One of the defeats knocked the Red and Black out of tournament competition.

It was the ninth win in 13 starts for Salem, while South fell for the fifth time in 12 tries.
Both teams were red hot during the first frame. Salem led three times, South three and the game was tied on three other occasions.

RICH SWEITZER made a bucket from the keyhole at 2:41 of the initial stanza to put Salem ahead to stay. The Red and Black held a 24-17 lead as the canto closed.

With 4:30 left of the fourth frame, Salem's John Zilske, who went in for Rick Sweitzer early in the third period, dropped in a pair of fouls to make the score 97-65.

George Buckshaw, 6-5 senior, made it 99-65 with a push shot, then Bill Beery added points 100 and 101 as he tossed in a pair of free throws.

Sweitzer, who has come a long way during the campaign, was most impressive. The 6-1 senior fouled out with 17 points to his credit.

At intermission, the Red and Black had a comfortable 52 - 34 margin and increased that spread to a 77-51 lead by the end of the third quarter.

COACH CABAS substituted late in the clash. Wayne Washington, seeing action for the first time as a varsity performer, made four points.

Salem attempted 70 field goals and swished the nets 43 times for 61.4 per cent. The Red and Black canned 21 of 27 free throws for 77.7 per cent.

Youngstown South tried 76 shots from the field and hit on 30 for 39.4 per cent. At the charity circle, the Warriors cashed in on 11 of 16 free throws for 68.7 per cent.

Bob King took scoring honors for Salem with 28 points. He also hauled in 25 rebounds off the boards.

Marlin Waller, who doesn't seem to get annoyed by anything, calmly made seven buckets from around the keyhole.

Rick Platt scored at least one basket every period as he finished with 17 points. Beery was held to his season's low, but was still tough enough to get into double figures. He made 12 markers.

Ernie McElroy paced Youngstown South with 24 points. Henry Orr chipped in with 13 and John Turner collected 12.

COLUMBIANA PLAYS the leagues two weakest teams this weekend while the Devils face the number four and six teams in the eight-team conference.

Columbiana will host the Bulldogs of East Palestine Friday night and will be on the road at Sebring Saturday. East Palestine is 3-5 in league play and 4-8 on the season. Sebring is seated firmly in the cellar with an 0-8 loop record and 1-11 season mark.

American League Will Play A Record 428 Night Games

By BOB HOOBING

Associated Press Sports Writer
BOSTON (AP)—American League teams will play the most night games in history this season with squads altered by mass trades. But the New York Yankees still remain the favorites to win their 13th pennant in 15 years.

Joe Cronin, president of major league baseball's junior circuit, announced the 1963 schedule today.

The traditional Presidential opener will be one of the earliest on record, April 8, at Washington with Baltimore furnishing the opposition.

The Yankees will open their quest for a fourth straight flag the next day at Kansas City while Chicago will be at Detroit, Cleveland at Minnesota and Boston at Los Angeles—the latter under the lights.

The record total of 428 night games, including doubleheaders,

is 38 more than last season and 52 more than in 1961 when the American League first expanded from eight to 10 clubs.

Los Angeles and Baltimore share honors as the most ardent teams with 59 night games. Kansas City will play 57 and Washington 56.

The perennially powerful Yankees, led again by 1962 Most Valuable Player Mickey Mantle, hope they have solidified their pitching staff through the acquisition of ex-Los Angeles Dodger Stan Williams via inter-league trade. New York gave up Bill Skowron in return.

Overtime Red Sox infield great Johnny Pesky is the new Boston manager while Birdie Tebbetts has taken over the Cleveland field boss chores. Ed Lopat will be starting his first full season at Kansas City though he replaced Hank Bauer last fall.

As usual interest will be keen in the jostling for rank as chief challenger to the Yankees, Minnesota and the amazing Los Angeles Angeles—in only their second year from scratch—finished 2-3 in the '62 race.

The return to a single All-Star game from the recent pattern of two finds the contest listed for Cleveland July 9.

Says Some Rules Are Same

Chicago Bears Coach Halas Reminisces About Old Days

By JACK HAND

Associated Press Sports Writer
MIAMI BEACH, Fla. (AP)—George Halas, owner-coach of the Chicago Bears, dug into the musty past today to tab the Red Grange era's indoor championship game of 1932 as the turning point in professional football.

Halas, one of the 17 charter

members named Tuesday to the National Professional Football Hall of Fame, was in a reminiscent mood as he spoke of the pioneer days.

"As we sat on the running boards of new cars, organizing a league in Ralph Hay's auto showroom in Canton, Ohio, in September of 1920, I never thought we

would have our own professional Football Hall of Fame," Halas said.

"The greatest impetus to our game, which was floundering a bit, came when Red Grange joined up in 1925. We took him right out of school. They didn't have rules in those days. He played his last game for Illinois at Ohio State on Saturday, and the next day he was on our Chicago Bears bench. The following Thursday he played for us against the Chicago Cardinals.

"The Bears, with Grange as their new drawing card, played nine games in 13 days. Imagine trying to do that now? You can't play two in a week."

Halas said important things came out of the indoor title game of 1932.

"We were playing Patsy Clark's Portsmouth, Ohio, Spartans for the title. There was two or three feet of snow on the ground. We moved inside to the Chicago Stadium. Because a circus had been playing the Stadium, they had six inches of dirt on the floor. The field was about 85 yards long, including the end zone, so we had to make some changes in the rules.

"In those days you were not permitted to pass unless you were five yards behind the line of scrimmage. We had a play in which Nagurski would fake a buck, then drop back a yard or two and lob a pass to Grange. We pulled the play for the touchdown that won the game.

"The next spring, I recommended they change the rules to permit passing any place behind the line. We also changed the rule to bring the ball in 10 yards from the sidelines when it was too close to the boundary. We had to do that in the Stadium to stay away worked out pretty well.

"George Marshall joined me in getting the rules changed although it helped me the most because we were the only team using the T formation. George also suggested putting the goalposts back on the goal line. All three rules stand today although they now bring the ball in 20 yards."

Six Coaches Seek Salem Football Job

Superintendent of Salem Schools Paul E. Smith has received letters of application from six area coaches who are seeking the football position here at Salem.

He said, "we will get a committee together and screen the applicants sometime in the near future."

"The board of education has sent out a letter of inquiry to one area coach we feel would be ideal for the job here," Smith went on, "but we have received no reply from him."

Two district mentors, one an assistant, the other a head coach, have telephoned The Salem News sports desk inquiring about the post.

One of them led his teams to a 22-5 mark over the past three seasons, after taking over a squad that had dropped 26 of 30 over a period of three years.

Supt. Smith said today "the job is wide open. Anyone interested should mail their letters of application to me at my office in the Junior High School building."

The position became available when Blaine Morton was relieved of his coaching duties last week.

I don't consider anonymous letters worth reading. They belong in the waste basket. Same goes for anonymous telephone calls. When I ask questions and they are not answered the receiver is hung up. I have received such reports about a vicious gang of violators in the St. Clair Township area that certainly deserves special attention and with the proper cooperation this mess can be cleaned up.

I want the name of the person reporting violations. I don't reveal the name of the person contacting me nor do I have to under any circumstances. The latest letter signed "Sportsman" has got to prove it to me. Where'd you get the idea you are a sportsman? Actually I believe you are afraid of your shadow.

PHEASANTS can be seen flying across the highway, both cocks and hens, where you perhaps thought none existed during the hunting season. These are rugged birds and I doubt if any of them starve to death regardless of the severity of the winter.

On the other hand these birds can get pretty hungry when their natural food is covered over by deep snow. I would like to ask all sportsmen to see if you can't muster up a few ears of corn and do your bit by placing it where the birds can get at it. The better method to do a little winter feeding is to sharpen off a brush stem about a foot above the ground, above the snow level, and shove the pithy center of the corn cob onto the stub. The pheasants will find it.

ONE THING about grouse, they never go hungry. When the whole land is snow covered they can live on the tender buds of various trees. Same goes for a rabbit, they can always get on top of the snow and chew the bark a little higher. They won't starve.

I read an interesting item recently in the "American Citizen" published by an industrial concern as follows: "Fifteen million fish were killed by water pollution in the U. S. during 1961, the Public Health Service said. The report shows that agricultural poisons led all known sources of fish kills, followed by industrial wastes." I don't think this holds true in our immediate area.

NFL Attracts 4 Million Fans For New Mark

MIAMI BEACH, Fla. (AP) —

The playing rules occupied the National Football League today after Commissioner Pete Rozelle reported there would be no further betting investigation.

Rozelle said once again that he was continuing his probe and would make a complete report only when the investigation had been finished.

The league beamed at record attendance figures of 4,003,421 for 1962, led by the New York Giants' total of 439,456 for seven straight sellouts at Yankee Stadium. It was the first time the NFL had gone over 4 million paid attendance almost doubling the figures of 10 years ago.

The most important rule change suggested would eliminate the possibility of a safety being scored on a penalty. This happened twice in 1962 and was the decisive factor in Pittsburgh's 30-28 victory over Dallas. End zone penalties against the defensive team now are enforced from the spot of the foul. If the rule is changed, officials would enforce the penalty from the line of scrimmage.

Oklahoma Pulls Surprise Upset

Clips Kansas State 81-75; Duke Wins

By TED MEIER

Associated Press Sports Writer
"The darting Sooner dwarf" is the appellation Oklahoma fans use to describe 5-foot-9 Eddie Evans, heralded as the most exciting player in the University's 56-year basketball history.

Evans lived up to his publicity notices Tuesday night as he helped the Sooners upset Kansas State 81-75 in the Big Eight Conference. The Negro senior scored 18 points on 6 field goals and 6 of 8 free throws.

Oklahoma's victory was virtually the only surprise on a national program that saw just one team in the Associated Press Top Ten go into action.

In that one, the third-ranked Duke Blue Devils whipped South Carolina 88-70 in the Atlantic Coast Conference.

Drake, looking ahead to its Thursday meeting with top-ranked Cincinnati, snapped a six-game losing streak and won its first Missouri Valley Conference game by defeating Bradley 79-72. Iowa State won its fifth straight by defeating Missouri 78-66 in a Big Eight fray. Virginia Tech turned back George Washington 79-75 in the Southern Conference and Morehead tumbled Eastern Kentucky.

In non-conference games Holy Cross beat Dartmouth 87-70. St. Bonaventure upended Providence 83-71. Villanova edged Duquesne 87-72 in the Ohio Valley. 49-45, Houston whipped Texas Christian 87-71. Connecticut defeated Boston University 90-76. Miami of Florida nipped Tampa 78-76. Seton Hall took Long Island 71-61. Texas walloped Trinity of Texas 88-54. Xavier of Ohio humbled Bellarmine 73-56. Montana State whipped Orange State 75-58. Fresno outclassed University of Pacific 79-50 and Los Angeles Loyola turned back Portland 66-58.

Veck's Offer Is Turned Down

WASHINGTON (AP) — Investment banker James M. Johnston took over as boss of the Washington Senators today after stockholders brushed aside an offer from Bill Veck.

Elwood R. (Pete) Quesada, quick-tempered, controversial former Air Force general, resigned as president Tuesday and sold his stock to a three-man group headed by Johnston.

Veck, a colorful American League figure as top man at Cleveland, St. Louis and Chicago, and Nate Dolin of Cleveland had offered \$5 million for the baseball team, despite its 10th place American League finishes the past two seasons.

Under the deal Tuesday, five of the original stockholders sold out to Johnston, his business partner names H. Lemon and aviation executive George M. Bunker, with two others retaining their original holdings.

The new board of directors elected Johnston chairman and indicated he would serve as chief executive officer with an office at the stadium.

Sonny Liston Says He'd Like To Box Clay, Ingo Same Time

BUFFALO, N.Y. (AP)—Heavyweight boxing champion Sonny Liston, decrying the oral offerings of Cassius Clay, made a few self-assured statements on his own Tuesday night.

Among other things, the world titleholder said:

1. He'd like to meet Clay and Ingemar Johansson in the ring at the same time.

2. He would dispose of ex-champion Floyd Patterson in less time (2:06 minutes of the first round) than it took last June in winning the crown.

3. Clay is a good fighter against ex-football players and grandfathers.

Liston said his only worry in fighting Clay would be that a doctor "can get my glove out of his mouth without cutting my wrist."

His reference to football players and grandfathers, he said, concerned Clay's recent ring triumphs over ex-pro gridders Charley Powell and aging Archie Moore.

He said he recently met Clay in Miami.

"I'll tell you, he's a talker. We almost went at it right there."

You'll Like Strawberry Russe Cake

By GAYNOR MADDOX
For the Valentine party, why not make a two-in-one dessert, featuring both cake and a creamy fresh strawberry russe as one unit? Its appearance is very glamorous.
The top layer is creamy fresh strawberry russe molded in a pan the same size and shape of the cake. It is unmolded over the top of the cake and decorated with whipped cream and fresh strawberries.

VANILLA FRESH STRAWBERRY RUSSE VALENTINE CAKE (6 servings)

1½ cups sifted all-purpose flour, 2 teaspoons double-acting baking powder, ½ teaspoon salt, 1 cup sugar, ½ cup softened butter, 1½ teaspoons pure vanilla extract, 1 large egg, 2-3 cup milk, Vanilla Strawberry Russe, Vanilla Whipped Cream, Fresh Strawberries for garnish.

Sift together flour, baking powder and salt. Set aside to use later. Gradually blend sugar with butter and pure vanilla extract. Beat in egg. Add flour mixture alternately with milk, beginning and ending with flour.

Turn into a well-greased, lightly floured heart-shaped pan, measuring 8½ inches across the widest part.

Bake in a preheated moderate oven (350 degrees) 35 to 40 min-

utes or until a toothpick inserted in the center comes out clean. Cool in pan 10 minutes. Turn out onto a wire rack to finish cooling.

Place cake layer on a cake berry Russe onto cake layer. It may be necessary to trim the gelatin to fit the cake layer since the cake shrinks a little.

Frost sides of cake layer with Vanilla Whipped Cream. Garnish as desired with remaining whipped cream put through a pastry bag and garnish with fresh strawberries.

VANILLA STRAWBERRY RUSSE
2 envelopes unflavored gelatin, ½ cup cold water, ¾ cup hot water, ¼ teaspoon salt, ¾ cup

sugar, ¼ cup fresh lemon juice, 1½ teaspoons pure vanilla extract, 1½ cups crushed fresh strawberries, ¾ cup heavy cream, whipped.

Stiffen gelatin in cold water. Stir in hot water, salt and sugar. Add lemon juice, pure vanilla extract and strawberries. Chill until mixture begins to thicken. Fold in whipped cream. Turn into a heart-shaped layer cake pan, measuring 8½ inches across the widest part. Chill until firm. Proceed as in above directions.

VANILLA WHIPPED CREAM
1 tablespoon sugar and ¼ teaspoon pure vanilla extract to ½ cup heavy cream. Beat with a rotary beater until stiff. Proceed as above.

per and cucumber. Add tomatoes and chop entire mixture finely. Add salt and pepper and chill.

FLAMENCO MAYONNAISE

1 cup mayonnaise, 2 tablespoons pimiento, 2 tablespoons chopped parsley, Few drops Tabasco.

Combine all ingredients and blend well. Chill. To serve, spoon individual servings of each condiment into paper souffle cups and arrange on large tray. Serve with small chilled rock lobster tails.

BAKED POTATOES WITH ONION-SOUR CREAM DRESSING

Wash 6 baking potatoes and pat dry. Bake in a preheated hot oven (450 degrees) 1 hour or until done. To test for doneness: Press sides of potatoes with fingers wrapped in a towel. Cut off a slice from the top of each potato and scoop out centers, being careful not to break the shells. Mash until fluffy. Add a little top milk and season to taste with salt, ground black pepper and butter or margarine.

Pile into shells. Combine ½ cup sour cream with 3 tablespoons finely chopped onion and spoon over each potato. Garnish with paprika, if desired.

NOTE: If desired, sour cream and onion may be beaten into the mashed potatoes. In that case, place the stuffed potatoes under the broiler until tops are crusty and brown.

SESAME SEED PARTY ROLLS (2 dozen party-size rolls)

1½-ounce package hot roll mix, 1-3 cup toasted sesame seeds, 1 egg white.

Prepare hot roll mix according to directions on package, adding ¼ cup toasted sesame seeds to dry mix. Let rise according to directions. Punch down and work dough on a lightly floured board, kneading about 1 minute. Pinch off pieces of dough and roll between palms to 5-inch lengths.

Shape into bow-knots. Place on lightly greased cookie sheets. Beat egg white until foamy. Brush over top of rolls. Sprinkle with remaining sesame seeds. Let rise until doubled in size. Bake in a preheated hot oven (400 degrees) 15 minutes.

Cooking Is Fun...

ITALIANNO POTATO SOUP

1 slice bacon, diced, 1 can (2½ ounces) cream of potato dry soup mix, 2 cups cold water, 1 cup milk, ¾ cup cooked Italian Green beans, Dash leaf thyme, Dash pepper.

In saucepan, cook bacon until crisp; pour off drippings. Remove from heat. Add soup mix; gradually blend in water until smooth. Bring to boil, stirring. Partially cover; simmer 10 minutes, stirring now and then. Add remaining ingredients; heat, stirring.

SWISS APPLE PANCAKES

2 eggs, 1 cup milk, ¼ cup light corn syrup, 1¼ cups sifted flour, 6 tablespoons (about) but-

ter or margarine, 2 medium apples (cored and sliced thin) Extra-fine granulated sugar.

Beat eggs slightly; add milk and corn syrup and beat to blend. Add flour; beat gently until smooth. Melt 2 tablespoons of the butter in a large skillet over medium-low heat. Pour batter for a few pancakes into skillet, using about ¼ cup for each.

Top each pancake with apple slices.

Cook, turning once, until lightly browned on both sides. Place on heat-resistant platter, apple side up; sprinkle with sugar; roll up. Keep warm in a very low oven.

GOOD APPLE DUMPLINGS

Bran Pastry (recipe below), 6 medium apples (pared and cored), 6 tablespoons plus ½ cup light brown sugar, 1 teaspoon plus 2 tablespoons butter or margarine, 1 teaspoon cinnamon, ½ teaspoon nutmeg, 1 cup boiling water.

Roll out bran pastry into a rectangle (18 by 12 inches); cut into six 6-inch squares; place an apple in center of each. Fill core cavities with a mixture of 6 tablespoons brown sugar, cinnamon and nutmeg; dot with 1 teaspoon butter.

Moisten edges of pastry with water; bring together opposite corners of each square and seal; prick pastry well with a fork. Place in a baking dish (11½ by 7 by 1¾ inches).

Bake in a very hot (450 degrees) oven 15 minutes. Dissolve ½ cup brown sugar and 2 tablespoons butter in boiling water; pour a little of it over dumplings. Reduce heat to moderate (350 degrees) and bake 45 minutes, pouring portions of the remaining syrup over dumplings at 15-minute intervals. Serve warm.

Bran Pastry: Crush ¼ cup ready-to-eat bran cereal into fine

crumbs and mix with 1 cups flour and teaspoon salt; cut in ½ cup shortening; stir in about 4 tablespoons water.

FLAMENCO ROCK OBSTER TAILS

South African rock lobster tails, (3 to 4 ounces) Gazpacho, Angostura Orange Relish, Flamenco Mayonnaise.

Drop frozen rock lobster into boiling salted water. When water reboils, simmer for 3 minutes more than individual ounce weight. (For example, simmer a 4-ounce tail for 7 minutes.) Drain immediately and drench with cold water. With kitchen shears, cut along each edge of thin underside membrane and strip off. Carefully remove meat from shell in one piece. Chill tails.

At serving time, arrange tails on buffet platters with lemon wedges. Let guests help themselves to whole tails and any selection of the following condiments in tiny individual paper souffle cups:

ANGOSTURA ORANGE RELISH
2 navel oranges, ¼ cup lemon juice, 1 tablespoon aromatic bitters.

Put oranges, rind and all, through food chopper. Add lemon juice and Angostura aromatic bitters. Mix well and chill.

AZPACHO

The Doctor Says

By Dr. WAYNE G. BRANDSTADT
Health Questions And Answers

Q—Is there any special food or vitamin that can be given to a 15-year-old boy who is unusually short? He is in good health, but is getting an inferiority complex over being the shortest one in his class.

A—Shortness is sometimes due to a glandular disorder, malnutrition, or some disease of the internal organs. If your son is in good health none of these causes would apply, and his height was determined by hereditary factors. No food or vitamin will help him in this regard. A person's adult height is very close

NEW GIANT OF THE AIR — The total distance flown by Orville Wright—120 feet—on his first flight at Kitty Hawk in 1903 would not have quite traveled the length of America's new jet aircraft giant, the C-141A Star Lifter. The C-141A's fuselage, shown being assembled by Lockheed-Georgia workers at Marietta, Ga., is approximately 125 feet long. When nose and tail are added, it will stretch 143 feet. The Star Lifter will see service in the Military Air Transport Fleet and also as a domestic cargo carrier.

Graham Cites Lack of Unity In Religion

COLUMBUS, Ohio (AP) — World-famed evangelist Billy Graham says a lack of unity is partly responsible for religion's inability to provide comfort in an era of tension and confusion.

Graham, in a sermon Tuesday to the Ohio Pastors Convocation, said that at a time when Americans need the church most, organized religion is losing power over the conscience and tone of society.

Calling for a renewal, awakening and revival in the church, Graham outlined these five steps: A revival of authoritative proclamation, with the church speaking authoritatively about sin, repentance, judgment and faith.

A revival of experimental faith. A revival of disciplined living, to avoid losing the Christian's distinction from the world of materialism and secularism in which he lives.

A revival of simplicity, for the Gospel has been made too complicated for the average man.

A revival of eschatological emphasis—in other words, a renewal of emphasis on the doctrine of last or final things, such as death, resurrection and immortality.

More than 2,600 persons attended the second day of a three-day session of leading Protestant figures from across the state.

The convocation ends tonight with an address by Carl T. Rowan, a member of the U.S. delegation to the United Nations.

Rep. Taft Pays Tribute to McKinley

WASHINGTON (AP) — Rep. Robert Taft Jr., R-Ohio, in his maiden speech in the House of Representatives, paid tribute to the late President William McKinley.

Taft told members of the House Tuesday that McKinley faced problems similar to today's although some consider his time archaic and his place in history a museum piece.

Red carnations, Ohio's state flower, were presented by the Ohio House delegation in an annual memorial on the birthday of McKinley, a Republican from Ohio who served from 1897 until his assassination in 1901. McKinley was a native of Niles, Ohio.

Taft, grandson of another Republican president from Ohio — William Howard Taft — noted that foreign domination of Cuba, as it is today, was a major issue when McKinley was inaugurated. The Spanish-American War and the liberation of Cuba followed soon afterwards.

First true clipper ship was launched by Donald McKay. The clippers were his original design.

FICTION

HARM'S WAY by James Bassett. The first year of the Second World War as experienced by the Navy in the Pacific forms the background for the story of a Captain's part in the action, and of course, his off-duty activities. The author is a political analyst for the Los Angeles Times, and was Admiral Halsey's press officer during the period about which he writes.

A SHADE OF DIFFERENCE by Allen Drury. This will inevitably be compared with Sinclair Lewis' "It Can't Happen Here" which foresaw an American Fascist revolution. In this case the revolution is one of race against race and small new nations against the United States. The action involves both the U. S. government and the United Nations,

with many of the behind-the-scenes locations and activities similar to those in "Advise and Consent."

A PATH TO THE WATER by Sarah Litsey. The position of government to one small boy whose parents neglected him gradually developed until Miss Witherspoon found herself with a school composed of much the same kind of spoiled children of spoiled parents. We stay with some of the children until they become adults and have children of their own, pleasurable to read.

THE HOUSE AT SUNSET by Norah Lofts. With this story Miss Lofts brings to an end the trilogy begun with "The Town House" and continued in "House at Old Vine." The house at Sunset is now a rural tenement but was once a handsome country residence. We

have stories about people who lived in it from early 18th century down to the present.

LUKE BENEDICT by Mark Oliver. Luke's story is told by his uncle after Luke has died. He was a man who tried to live the truth as he saw it and in doing so found himself nearly always unpopular.

THE STILLMEADOW ROAD by Gladys Taber. The story of how Gladys and Jill bought the house at Stillmeadow while getting it livable, and the joys and sorrows of their continued occupancy.

THE HIDDEN MOUNTAIN by Gabrielle Roy. A poignant story about a young man who is driven to paint, and driven to explore inaccessible places, and unusual places, to find his subjects.

NON-FICTION

ARMS AND EQUIPMENT OF THE CIVIL WAR by Jack Coggin. A well-organized and meticulously illustrated book about the various branches of the Union army of Civil War days. Different sections are devoted to the infantry, the cavalry artillery, engineers, signal corps, medical departments, quartermaster corps and the navies.

THE WEBFOOT WARRIOR by Herbert Best. The story of one of the smallest and most select groups in the United States Navy - the Underwater Demolition Team. Accurate and interesting descriptions of what they do and how they are trained, slanted toward the young man who is interested in dangerous careers.

GREAT STAGECOACH ROBBERS OF THE WEST by Eugene B. Block. The period of the stagecoach was the greatest from the discovery of gold in 1848 to the completion of the transcontinental railway shortly after 1900. This was the period when a bold and clever robber could become wealthy indeed at least for a short while. The stories of some of the most successful robbers some of the best stagecoach driver and many episodes of violence are related here.

THE ECONOMICS OF EDUCATION by John Vaizey. An Englishman who is both an economist and an educator assembles opinions of various economists about education and makes an evaluation of the economic worth of education to various countries.

THE GOLDEN GUIDE TO GUNS by Larry Koller. After a brief history of American guns, the author takes up guns by four categories - the rifle the shotgun, the handgun and the target gun. The book is illustrated on every page with photographs or diagrams.

THE JOY OF COOKING by Irma S. Rombauer and Marion Rombauer Becker. Of all the well-known and well-liked general cookbooks, this is perhaps the broadest in scope. This 1962 edition has 862 pages of small but reasonably clear print, and encompasses almost any kind of food likely to be served in American homes.

THE COMPLETE BOOK OF WATER SPORTS by Arthur Liebers. There is basic information here about all the various water sports, advice on safety, types of apparatus, also directions for various activities for the pool.

SELLING POETRY, VERSE AND PROSE by Carl Goeller. Subtitled "A Guide to the Greeting Card and Magazine Market", this little book is full of samples and advice about the kind of rhymes and jingles and ideas that are salable - and those that are not.

THE CHAMBER PLAYS by August Strindberg. The four plays included are Storm Weather, The Burned House, The Ghost Sonata and The Pelican. All of these were originally written for the small theatre in a remodeled store building in Stockholm in which Strindberg tried out some of his advanced ideas on play writing.

THE BATTLE FOR BUNKER HILL by Richard M. Ketchum. A very lively and readable, yet extremely accurate picture of the battle so famous in American history.

KNIGHT IN THE SUN by Marshall Hall. The story of the first American ever to become a professional matador in Mexico. It was in 1909-1911, and Harper B. Lee had grown up in the country. He spoke Spanish as easily as English, he was over six feet tall, and he was afraid of nothing. A fascinating tale for those who are interested in this national sport of Spanish countries.

A TOUR OF THE WHITE HOUSE WITH MRS. JOHN F. KENNEDY. The full text and the pictures of the famous television hour, plus quite a lot of editorial and descriptive comment by Percy Wolff. Eight of the illustrations are in color.

Five fresh copies of various works of Mary Baker Eddy have been received as a gift from the Christian Science Society of Salem.

Reference:
ENCYCLOPEDIA OF WORLD ART, Vol. VI. This volume covers words from "Games and Toys" through "Greece". When complete this will be a monumental work covering the whole span of the arts of man all through history.
